

STOPit™

EDUCATION SOLUTION

INTRODUCING STOPit

STOPit is the smart technology
that saves you time.

“It was through this app that systemic abuse was able to be reported, documented and resolved.”

Dr. Andrew Williams, Principal
Tuacahn High School

STOPit has been proven to help schools across the country and the world save time and get back to educating students by addressing and preventing pervasive issues such as:

- ✓ Bullying
- ✓ Cyberbullying
- ✓ Violence
- ✓ Inappropriate student-teacher relationships
- ✓ Hazing
- ✓ Drugs/alcohol
- ✓ Self-harm
- ✓ Any issue which can negatively impact the learning environment

The STOPit mobile app provides a safe, anonymous and comfortable way for students to share information with you so that you can provide help – as quickly and efficiently as possible.

STOPit gives administrators powerful investigative tools – such as real-time alerts, built-in reports, and the ability to communicate directly with incident submitters – so that you can resolve issues quickly.

STOPit is a proven and powerful deterrent.

“We’ve seen an 83% decrease in harassment, intimidation and bullying Reports since we launched this program.”

Brian Luciani, Principal
David Brearley Middle and High School
Kenilworth, NJ

**STOPit is a proven and
powerful deterrent.**

**The best way to mitigate risk is
to stop it before it happens!**

I see STOPit as a major tool for change....Additionally, the deterrent effect of the program was powerful and evident immediately...When I talk to students and parents about a situation I now present them with factual, legally defensible evidence...Overall, STOPit functions as a security blanket for us and ensures we are leveraging the latest technology to help our students.

CAPT Neil May, USN (Ret.)
Washington HS Navy JROTC

HOW IT WORKS

Real Time
MESSAGING

Real Time
REPORTING

Real Time
AWARENESS

STOPit

The easy, fast, and anonymous mobile app for students

- » Report incidents anonymously
- » Submit photo or video evidence
- » Communicate anonymously with administrators with STOPit Messenger
- » Stand up for themselves and their peers without risk of reprisal

DOCUMENTit

The simple, time-saving, & comprehensive incident management system for administrators

- » Real-time email and SMS alerts of new incidents and messages
- » Follow up with incident submitters to ask questions or get more information via STOPit Messenger
- » Proactively get notified of patterns or problems with custom Alerts
- » Cloud-based system stores evidence securely
- » Get actionable data in our built-in Reports dashboard
- » Time- and date-stamped audit trail of all investigative activity

STOPit Benefits Everyone

- » Reduce your workload as a result of STOPit's deterrent effect
- » Save time with powerful investigative tools
- » Be proactive by addressing problems early, before they spiral out of control
- » Automate regulatory compliance and risk mitigation

Don't listen to us,
Listen to you!

We were able to stop a teacher/coach who had been sexually abusing students in our school & community.

Dr. Andrew Williams, Principal
Tuacahn High School

"We were able to stop a teacher/coach who had been sexually abusing students in our school and community. Through the STOPit app, in an anonymous format, students were able to report sexual abuse. While not going into those details, it was through this app that systemic abuse was able to be reported, documented and resolved with the proper authorities. Students felt comfortable, that if they report this through the app, it would be handled and protect them as student reporters."

The best part about STOPit is that it saves me time. Using DOCUMENTit, I can manage all of our incident reports in one place and send a message directly back to the submitter. Students no longer have to make the trip down the hallway to report and as a result are spending more time in class.

Sarah M. Doherty M.Ed.,
School Counselor / ABS
Folsom Elementary School

"I see STOPit as a major tool for change. It gives us a great feeling to know that we are helping kids and have the ability to act on incidents instantly. Our reaction time to incidents has significantly improved and all new incidents are addressed by an adult in under 2 minutes. Additionally, the deterrent effect of the program was powerful and evident immediately. On the DOCUMENTit side, it has been a huge benefit to have all of the material related to an incident in one place. When I talk to students and parents about a situation I now present them with factual, legally defensible evidence. On the support side, the provided materials have been very helpful and the Call Center responded to all of my questions in no time. Overall, STOPit functions as a security blanket for us and ensures we are leveraging the latest technology to help our students."

the deterrent effect of the program was powerful and evident immediately

CAPT Neil May, USN (Ret.)
Washington HS Navy JROTC

“The documentation side of things has been amazing.

As I investigate a claim, I use the notes section to document a running narrative of what I have found and who I have interviewed. The program makes it very easy to keep all of our ducks in a row.

Patrick Korn, Upper School Principal
Mount Airy Christian Academy

“One of our concerns before implementing the program was misuse and false reporting. The students are using the Stop It program appropriately with very few false reports of incidents. It is a worthwhile application that has assisted us in addressing and decreasing bullying issues among our students.”

**“decreasing bullying
issues among our
students”**

**Bonita Nolan, Office of
Coordinated School Health**
Franklin County Schools

“Entering the 2014-2015 school year I could not believe what I was witnessing, our “HIB” incidents had dropped nearly sixty percent (60%) from the previous school year and over a seventy percent (70%) drop in “HIB” incidents from the 2011-2012 school year. STOPit allowed our students to feel safer and provide our administration the ability to be proactive in responding to students concerns and problems that were developing before they became a serious issue. Administratively we also saw how our investigation completions went from an average of eight days to below four days.”

Brian Luciani, Principal
David Brearley Middle and High School

**“I have seen an 83%
decrease in HIB Reports”**

Brian Luciani, Principal
David Brearley Middle and High School

“STOPit has allowed our district to be proactive in dealing with incidents of harassment and bullying. I have seen an 83% decrease in HIB Reports submitted to my office since we launched this program.”

"We have seen success with bullying incidents, things on the bus and even students who have had suicidal thoughts."

"I highly recommend the STOPit program to empower bystanders in your school building. Students are digital natives and many choose to communicate, first, through digital means rather than face-to-face conversations. This program meets them where they are and allows students to initiate conversations with counselors and administrators on their terms. Although we hear about all the dangers and pitfalls of technology, I have seen the STOPit program flip the tables and use technology to combat bullying and suicidal ideation. Adults cannot be everywhere in the school building, but our students are everywhere. With this program they can, more easily, stand up for each other and create a culture of safety, caring, and respect."

**Dr. Robb Killen, Supervisor of
Counseling and Mental Health**
Maury County Public Schools

Dr. Robb Killen @MCPSmentalhlth · 3h

Happy stats to start New Year @MauryCoSchools! Bullying incidents down by 72% in 2016 (Aug-Nov), as compared with 2015. @STOPitcybrbully

Ande Noktes, Head of School
Midtown International School

STOPit makes it easy for students to report any and everything they want to communicate with administration. As a student body heavily invested in pursuit of justice, this is much easier for us than scheduling student meetings every time someone has something to report.

**1,200 pairs of
eyes looking out
for our students**

Dr. Dave Zuilkoski, Superintendent
Eastern Lebanon County School District

"STOPit allows us to have 1,200 pairs of eyes looking out for our students, not just the eyes of teachers or administrators."

The enrollment process with the STOPit app has been a very easy process. We have all three schools enrolled. Great app and great process. Thank you.

Corry Roberts, MS/HS Principal
Crazy Horse School

stopitsolutions.com | 1420 US Hwy 206 | Bedminster, NJ 07921 | 908.748.4500

"Set Up Was So Easy"

"There are several aspects that make STOPit stand out among competition:

- The seamless design of DOCUMENTit and being able to run reports to see what issues our district is having the most of
- The overall ease of use for the students and the administrators.
- The set up was so easy and any questions I had were quickly addressed

STOPit gives our students a private place to report things that are going on with them or things they see in our schools. We look at this program as a reporting tool, not just anti-bullying."

Amanda Eggleston,
Marketing & Cooperative Education
Webb City Schools

Instead of us being reactive all the time and saying we're waiting for a problem to arise, now we're spending our time on the front end mitigating those problems. This app gave a whole group of students a voice.

Dr. Andrew Williams, Principal
Tuacahn High School

"It has been great to team up with the people from STOPit and to help deliver their product to our school customers across the country. STOPit is passionate about making a positive difference in our schools and communities. More importantly, they are empowering students and teachers to stand up against cyber bullying and other inappropriate behavior."

**STOPit is
passionate
about making
a positive
difference"**

**Scott A. Rohr, Divisional
President, Public Sector**
Great American Insurance Group

Dr. Kevin Cooper,
Assistant Superintendent
Webb City Schools

By providing this app and giving them a nice easy way to make a report if somebody is having some issues, we just feel it goes a long way to ensuring the safety of kids here at school whether they're reporting something for themselves or their friend.

“To me, if it helps one kid, it’s worth every penny we spent.”

James Renfro, Assistant Principal
Cherryvale Middle/High School

“If there is something going on in your life that you can’t talk to somebody here about, you can’t talk to your friends about it, you can’t talk to your mom about ... here’s an opportunity for you.”

“Students can partner with schools”

The best feature about STOPit is it Strengthens Student Upstanders. Students can partner with schools to help define appropriate culture and climate by what is acceptable and what is not. I think stop it has given a voice to students when a situation arises involving social media or other compromising situations that they want to report at night or on the weekend.

Mary-Jo Eppright, MSW, LCSW, HIB
Specialist/Student Support/School Social Worker
Sterling High School

**James Bouché, Principal/
District Administrator**
Lakeland Union High School

This year, we have ‘STOPit,’ which is an app that students can download onto their smartphones and identify if some bullying is taking place. That is reported immediately. Letting students know that there is an avenue to go and fight against bullying, against sexting and against technology, inappropriate use—things of that fashion. We want our students to know there is a process.

“STOPit provides a documented trail of actions. Used by a school district to take quick action it will show that a school is doing more than that required by the HIB Statute. This is a plus when defending against litigation.”

“This is a plus when defending against litigation.”

Scott C. Tennant, Area Vice President,
Public Sector Practice
Arthur J. Gallagher & Co.

“Until we started working with STOPit, I had not seen an effective loss control tool that deters or eliminates what I call ‘behavior claims’.”

Andrew Kay
Senior Vice President
Great American Insurance Group

Whoever that report goes to does have the opportunity to message back and forth with the student so if we need more information about hey which student needs help, is this student you, we can talk to them back and forth through another confidential way.

Dr. Kevin Cooper,
Assistant Superintendent
Webb City Schools
