

JICHS Leadership Team Report

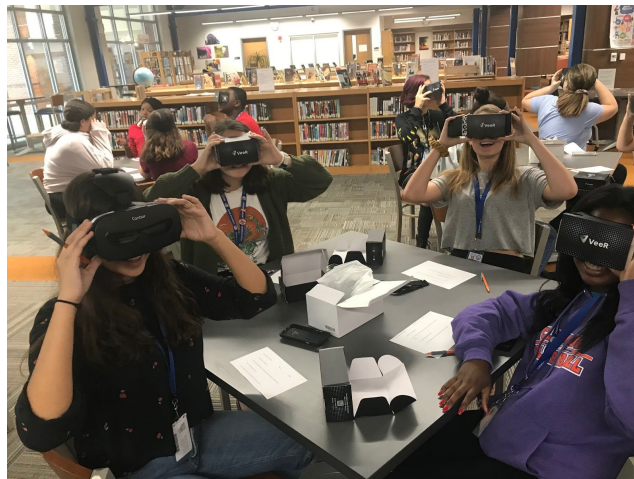

21 October 2019

LEADERSHIP TEAM:

- ❑ The Leadership team is focusing on a few projects:
 - ❑ We are finalizing the initial drafts of our Charter Goals Strategic Plans.
 - ❑ We are analyzing the ins and outs of a couple new programs -- CERT and ILT/SLT.
 - ❑ We are preparing to finalize our 2020-21 Program of Studies; we plan to finalize that before the winter break.

SOCIAL STUDIES:

- ❑ World geography students did a Career Exploration on Ecologist using Virtual Reality equipment. They learned how GIS mapping is used in urban development and how animal species are protected. As a bonus they learned problem solving in a small group and had fun!

CTE & FCS:

- ❑ JI Alum from the International Diving Institute came in today and spoke to a few Science classes and one of the Engineering classes. Students really enjoyed it and it gave them an idea for a different career path.
