

JICHS Leadership Team Report

18 May 2020

LEADERSHIP TEAM:

- ❑ The leadership team is focusing on closing out the school year as efficiently as possible. Teachers are wrapping up their curricula this week; next week will be essential for students to complete outstanding assignments.
- ❑ The social studies department will conduct virtual PLCs in early June to familiarize themselves with the newly adopted SC standards for those courses.
- ❑ The AVID site team is currently finalizing student applications and interviews to select our new class of 2024 cohort! We have 32 applicants (and 6 applicants for consideration to join the class of 2023 cohort).

ROTC:

- ❑ I am happy to report that contact with both active and reserve cadets in SC-922 has found most all of them thriving and adapting well during the COVID-19 shutdown. Unfortunately, the shutdown prevented our unit from having its scheduled tri-annual inspection by our national AFJROTC headquarters back in March. Our HQ directed that no cadet group activities be held until further notice and our adapting to all closure protocols denied cadets participation in several anticipated events this semester. However, before the closure occurred, our cadets were able to accomplish enough community service activities/hours and other actions to be recognized as one of 50 AFJROTC units to receive the AFJROTC Outstanding Organization Award for the 2019/2020 school year. Our unit's annual awards ceremony was cancelled. Underclassmen will receive their awards earned early next semester at a yet to be determined date/time. Our senior cadets that earned awards this year are going to receive theirs in the next couple of weeks, one-on-one, after coordination with their parents. Of our thirteen cadets that completed four years in the ROTC program, six have already or soon will be enlisting in the US military, three will be attending senior ROTC at their respective 4-year college they will be attending, and one received an appointment to the United States Military Academy at West Point.
